Hull Diving Marine (HULLDM) is a Marine Services Company located in Qatar, Specialized in Hull Cleaning and Propeller Polishing, HullDM is flexible and has the resources to perform a wide variety of tasks, starting from small local contracts to large international projects.

Our goal is to perform the task on time, every time with the highest degree of professionalism possible.

HullDM continuously strives to provide high quality and cost effective services, consistent with our commitment to our customers and to the safety of our employees, HULLDM operates to recognized international standards as laid down by IMCA & HSE, we also aim to bring the latest technology to the local market.

Company Introduction

HULLDM offer services to the international shipping industry (In-Water Surveys, Repair & Maintenance, Hull Cleaning & Propeller Polishing, Dredging Support/Maintenance, Salvage, etc), we are currently approved by American Bureau of Shipping, Llyods Register, Bureau Veritas and Germanischer Lloyd Classification Societies, and also we are the only Diving Company in the region approved by the U.S. Navy & NATO for work on their Vessels & sub-sea equipment.

HULLDM Divers are qualified to recognized international standards, our divers could easily aquire visa/permit requirements for working around the Gulf. We have recently completed contracts in around GCC countries as well as abroad.

HULLDM also provides general diving services, U/W Civil Engineering, Seabed Survey & preparation, Dredging & Reclamation, Cable & Pipeline Installation, Salvage & Recovery, Construction & Demolition, Ultrasonic Thickness Survey and N.D.T. We also provide an Emergency Callout service for the G.C.C. region and can attend most of the major ports (Kuwait, Dammam, Jubail, Doha) within 24-48 hrs.
